

300+

couples from more than
20 countries.

4 days*

in Thailand

*Four days is the shortest stay possible and applies when your documents are prepared and legalized before you arrive.

A lawyer on every case.

A licensed Thai lawyer reviews your documents and handles your case from start to finish.

Track your case in our online secure portal.

You can see every step, every document and every payment in your portal, at any time. Your privacy is also our main concern: your documents are seen only by the people who need to see them.

Scan to start *your* case.

pridelegal.co.th/marriage

The first LGBTQ+ legal marriage service *in Thailand*

Any nationality. No long-term visa required.
4 days in Thailand is enough.

Trusted by more than 300 couples from more than
20 countries

Why register your marriage.

Medical decisions and next-of-kin rights.

In an emergency, your marriage certificate can be important evidence when a medical decision must be made for one of you. Even if your country does not legally recognize the marriage, the certificate can still serve as important evidence of your relationship.

Your marriage can be recognized anywhere.

Most countries that recognize same-sex marriage accept a marriage that was valid in the country where it took place. We give you a legalized and translated copy of your certificate to use in other countries.

A route to a spouse or partner visa.

If either of you is a citizen or resident of a country that recognizes same-sex marriage, your Thai certificate can support a spouse or partner visa application. One of you can then sponsor the other to live together.

Benefits from employers, insurers and banks.

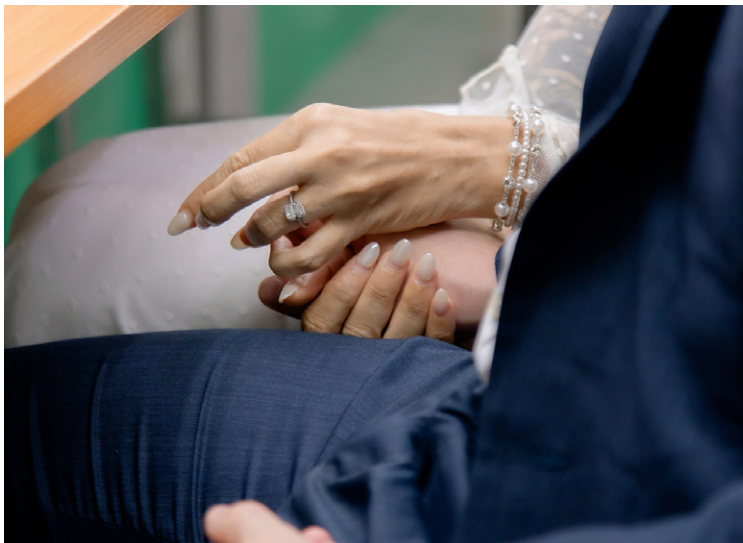

Many employers, insurers and banks accept a valid marriage certificate for spousal benefits. This can include family health cover, pension nominations and joint accounts.

An official record of your relationship, starting now.

Your certificate gives your relationship an official date. Recognition is growing around the world, and that date can matter later for tax, pensions, residency and inheritance.
